

CABLECAST VOD VIDEO ON DEMAND

Cablecast SX VOD makes your station's programming content available on-demand to anyone with an internet connection for viewing anytime, anywhere. Cablecast SX VOD is completely integrated with Cablecast scheduling and automation so that all you need to make your content available is an internet connection. As with all things Cablecast, you produce the content, Cablecast does the rest.

WHY USE THE CABLECAST VOD?

- No additional work required for offering video on demand from your website.
- No additional work required for PODcasting.
- Your viewers can receive automatic notification when new content becomes available for viewing or for download. (through RSS)
- Content can be viewed at home, or downloaded to an iPod or other media player.
- Enables you to provide your content throughout the world, each producer will automatically have international exposure.

KEY FEATURES

- Completely integrated with Cablecast scheduling and automation software
- Cablecast automatically updates podcasts for iTunes and other media aggregators (RSS)
